

Biography

PETER A. ODDI, P.E., PMP Deputy District Engineer for Programs and Project Management

U.S. Army Corps of Engineers, Savannah District

Peter A. Oddi became Deputy District Engineer for Programs and Project Management and Chief, Programs and Project Management Division for the Savannah District, U.S. Army Corps of Engineers, in May 2005. This is the senior civilian position in the District. The District manages approximately 250 projects in various stages of planning, design, and construction. Before assuming his current position he served four years as the Chief of the Military Program and Project Management Branch in the Savannah District.

The division Mr. Oddi heads includes a staff of about 75, who are involved in managing military design and construction; hazardous, toxic, and radiological waste remediation; and civil works water resources development.

The Savannah District supports Army and Air Force installations in Georgia and North and South Carolina, and water resources activities in Georgia and portions of South Carolina. The Savannah District performs work nationwide and worldwide in support of master planning, family housing, barracks and other facilities. The Savannah District also provides support worldwide, as needed, to support the nation during the Global War on Terrorism.

Mr. Oddi began his career with the U.S. Army Corps of Engineers in 1983 as a structural engineer with the Vicksburg District, Vicksburg, Miss. In 1987 he moved to the Savannah District and served in a variety of project management positions as assistant branch chief, senior project manager and project manager. He is a registered Professional Engineer as well as a certified Project Management Professional.

Mr. Oddi's professional awards and recognition include the U.S. Army Medical Command's Charles E. Christ Award in 1993; South Atlantic Division's Military Project Management Excellence Award in 1990; and the Air Force's AFRCE-ER Design Manager of the Year Award in 1988.

Mr. Oddi graduated from Auburn University in 1981 with a Bachelor of Civil Engineering degree and received a Master of Civil Engineering degree from Mississippi State University in 1987. He is a member of the American Society of Military Engineers and the Project Management Institute.
